## Symposiums & Conferences

### TRIZ Future 2003: ETRIA

**11/12/2003 - 11/14/2003**

The European TRIZ Association ETRIA presents its third annual TRIZ Future Conference. The conference shall bridge between the academic and practical aspects of TRIZ. As the majority of industrial TRIZ applications is known in the automotive industry, the conference title is: "TRIZ Develops! Worldwide Best Practices in Systematic Innovation through Automotive Industry" 35 speeches are planned for the 3-day-conference. The objective is to provide an international forum to promote, exchange, disseminate and discuss information on TRIZ - so as to forecast on it's own evolution. More information and application form can be found on <http://www.wzlforum.rwth-aachen.de/cms.php?id=221> ETRIA: The European TRIZ Association
