

Calendar

Workshops (19/03/2007)

Oxford Creativity teaches TRIZ in two courses. The first is a two-day workshop and the second is three days which should follow about one month later. Together these will give an understanding and use of the best TRIZ tools in just five days.

Within this TRIZ training we offer structured TRIZ qualification in three stages:

- **TRIZ Tyro** - completion of Basic workshop
- **TRIZ Champion** - completion of Advanced workshop
- **TRIZ Problem Solver** - completion of Advanced workshop and published a TRIZ case study

Call for Papers

Second Iberian and Latin American Conference on Technological Innovation

October 30-31 and November 1, 2007

Co-ordinated by: TRIZ Association (AMETRIZ)

The Mexican TRIZ Association (AMETRIZ) TRIZ Association (AMETRIZ) is proposing the Second Iberian and Latin American Conference on Technological Innovation in order to create

opportunities for Industrials, Researchers and Academicians for exchanging their experiences in Spanish and English language.

The technological innovation has become an indispensable demand for the economical and social development of countries and for the survival and the success of enterprises and institutions. The "Theory of Inventive Problem Solving" (TRIZ) is a practical methodology and an evolving science. TRIZ has been proved to be effective in several cases for solving problems and to develop strategies for future technologies in the industry and science. TRIZ it is expanding in to non technological areas as business, management, medicine, psychology and Education.

Announcement

TRIZ-Conference Future 2007

November 6 - 8, 2007

Co-ordinated by: ETRIA - European TRIZ-Association and European TRIZ-Centrum

Continuing the history of the recent quite successful Conferences of the European TRIZCentrum and ETRIA – European TRIZ Association we will proceed this series in cooperation with the Chamber of Commerce in Frankfurt/Main, Germany. This upcoming conference “TRIZ-Conference Future 2007: Current Scientific and Industrial Reality” will take place from 6th to 8th November. The idea of TRIZConference Future

2007 is to share and exchange the knowledge of scientific & industrial TRIZ-experts worldwide with focus on these topics:

- TRIZ - Best Practices in Industry, especially SMĚs (case studies; integration & combination with other innovation methodologies)
- Further Developments of TRIZ: New Methods, Ideas, Approaches (new results and findings)

Advanced Approaches in TRIZ Education and Training (in schools, universities, qualification programs for engineers and managers)
